## **Network Frontiers and Relational Security Announce Partnership to Deliver the Unified Compliance Framework through RSAM™**

**Integration reduces GRC costs for companies bound by multiple standards of compliance**

LAFAYETTE, CA & SECAUCUS, NJ - November 3, 2009 – [Network Frontiers](#), the leader in IT regulatory compliance management and [Relational Security Corp.](#), (RelSec), a leading provider of the enterprise-class risk & compliance management software, [RSAM™](#), are pleased to announce a strategic partnership to deliver the [Unified Compliance Framework](#) (UCF) through RSAM™. The new partnership will provide an opportunity to leverage UCF content via a robust, proven platform delivering a practical and cost effective solution for companies bound by myriads of compliance standards.

The UCF is a unique compilation of IT controls from over 400 international regulatory requirements, standards and guidelines, harmonized into a cross-referenced, single set of requirements. Businesses use the UCF to effortlessly identify the commonalities among multiple regulations, leverage existing policies, processes, and tools, to meet regulatory demands and dramatically cut the cost and time invested in compliance efforts.

Used by organizations to automate their risk & compliance management processes, RSAM™ offers modular, out-of-the-box deployment in the areas of [Risk Assessment](#), [Compliance Management](#), [Issues & Remediation Tracking](#), [Audit Automation](#), [Policy Exception Management](#), [Vulnerability Management](#), [Vendor Risk Management](#), and [Incident Management](#) among others.

“The RSAM™ framework allows our customers to quickly and effortlessly evolve their risk & compliance programs. Offering UCF content via the RSAM™ platform is just another example of how we are continually adding value for our customers. Partnership with Network Frontiers provides a comprehensive controls database, constantly updated and rationalized across 100’s of regulations and standards, solving a complex problem for customers,” said Vivek Shivananda, CEO of Relational Security.

“Network Frontiers is focused on creating the most complete and accurate database of IT compliance controls,” says Craig Isaacs, CEO of Network Frontiers. “It’s great news for UCF adoptees to have the option of using the Unified Compliance controls framework with RSAM™, one of the most established and widely used risk and compliance management tools in the market.”

### **About Network Frontiers and the UCF**

Since 1992, Network Frontiers has developed ground-breaking tools to support IT best practices with a special focus on regulatory compliance, metrics, systems continuity and governance. The Unified Compliance Framework (UCF) is Network Frontiers' flagship product. By focusing on
