

Regulatory Change Management

Relieve the Pressure of Demonstrating Compliance

Enterprises must prove they are compliant with a never-ending barrage of evolving and emerging regulatory requirements. Organizations struggle with how to successfully manage this complex process without losing their ability to be nimble, grow their core business and respond to market dynamics.

Rsam's Regulatory Change Management (RCM) module provides a single integrated framework to effectively accomplish this task across a federated regulatory change management process. Users can:

- Monitor regulatory changes and identify which are applicable to their business
- Evaluate the inherent risk and impact of changes
- Establish workflow-based remediation activities

Key Benefits

- **Create Consistency**—establish a central repository for regulatory intelligence, regardless of its source, so you can consistently manage change.
- **Simplify Workflow**—automatically routes information to the right subject matter experts for disposition and weeds out irrelevant data so staff aren't overwhelmed.
- **Assess Business Impact**—quickly assess the impact of change to your business, including related policies and controls.
- **Automate Remediation**—establish workflow-based remediation activities, including review, approval, execution and exception, to maintain compliance.
- **Make Data Usable**—monitor regulatory changes and align to business priorities with Rsam's dynamic search capabilities and dashboards.

About Rsam

Rsam is a leader in the field of Governance, Risk, and Compliance (GRC) solutions and is the fastest time-to-value GRC provider. The Rsam platform delivers unparalleled flexibility for companies to leverage out-of-the-box solutions and "Build Your Own" (BYO) applications for a wide range of GRC functional areas, including audit, business continuity management, compliance, enterprise risk, IT risk, incident management, operational risk, policy management, security risk intelligence, vendor risk management, regulatory change management and more.
