

LexisNexis State Net Connector for Rsam Regulatory Change Management

Automatically Keep Track of Regulatory Changes

You can reliably and cost-effectively manage regulatory change without adding more people to the process. Rsam has partnered with industry leader LexisNexis® to provide a comprehensive solution for automating your regulatory change management program.

By bringing LexisNexis State Net® legislative and regulatory intelligence together with Rsam's state-of-the-art GRC platform, you can reliably and cost-effectively monitor new legislation and regulations, assess applicability and impact, and track response plans (e.g. updating related policies, procedures and other internal controls based on changing requirements) across a distributed regulatory change program, helping you achieve your corporate governance and strategic business objectives.

LexisNexis State Net Features:

- Seamless integration with Rsam Regulatory Change Management module
- Covers more than 9,000 agencies
- Filter to show only topics and jurisdictions relevant to your organization, including: Insurance–Health, Insurance–P&C, Financial Services, Energy, Life Sciences, Manufacturing, Labor & Employment, and Environmental Health Safety
- Analysis by LexisNexis's team of regulatory experts ensures reliable and relevant information
- Value-added metadata such as summary, action history, topics, key dates, and link to latest full text version with redlines
- Weekly updates

Key Benefits

- Close Compliance Gaps—with Rsam and LexisNexis, you can stay informed of new legislation and regulations with confidence that critical information isn't slipping through the cracks.
- Engage with the Right Experts—metadata lets you automatically route relevant content to the appropriate subject matter expert for disposition.
- Streamline Workflow—view full text of legal and regulatory content, including red lines, directly within the assessment workflow.
- Assess Business Impact—Expert analysis from LexisNexis helps you quickly understand the impact of changes on your organization.

About Rsam
