Manage Healthcare-Relevant
Regulations With Greater Ease

HITRUST CSF and MyCSF Offerings by Rsam

HITRUST CSF is a popular security framework with wide-spread adoption across US-based healthcare organizations. It provides them with a comprehensive, flexible and efficient approach to regulatory compliance and risk management. Developed jointly by healthcare and information security professionals, the HITRUST CSF rationalizes relevant regulations and standards into a single overarching security framework.

Because the HITRUST CSF combines both risk and compliance-based approaches, organizations can tailor the control baselines based on organization type, size, systems and regulatory requirements. The HITRUST CSF has become the most widely-adopted healthcare security framework in the US.

Rsam has partnered with HITRUST since 2011 to bring value to its healthcare customers. There are two specific offerings via our HITRUST relationship:

- **HITRUST CSF content in Rsam:** This provides the HITRUST controls and factors inside of the native Rsam assessment framework. Allowing customers to follow their standard Rsam assessment approaches, and leverage the power of the HITRUST content.

- **HITRUST MyCSF Customer Dedicated Rsam Instance:** This provides the capability for customers to utilize the dedicated HITRUST MyCSF solution and maturity model as a part of their existing or new instance of Rsam. Both the model and interface are tailored for the MyCSF look and feel.

The table below provides the details of these two offerings:

	Rsam CSF Content	MyCSF in Rsam
CSF Library	Yes	Yes
Flexible Workflow	Yes	Yes
Flexible Reporting & Dashboards	Yes	Yes
HITRUST specific MyCSF Reports	No	Yes
Assessment types	Integrated with standard Rsam survey-based assessments module	Dedicated to HITRUST prescriptive assessment methodology and maturity model
CAPS (Corrective Action Plans)	Rsam standard remediation workflow	HITRUST CAPS (Corrective Action Plans)
Enables HITRUST Certification	No	Captures the data required for HITRUST certification

About Rsam

Rsam is a leader in the field of Governance, Risk, and Compliance (GRC) solutions and is the fastest time-to-value GRC provider. The Rsam platform delivers unparalleled flexibility for companies to leverage out-of-the-box solutions and "Build Your Own" (BYO) applications for a wide range of GRC functional areas, including audit, business continuity management, compliance, enterprise risk, IT risk, incident management, operational risk, policy management, security risk intelligence, vendor risk management, regulatory change management and more.
